PLEASE TAKE CARE: our service for projects development and for products calculation is completely free of charge, it has to be considered as an indication.
The calculated quantities must be checked from the customer before the order confirmation.
Geoplast S.p.A. refuses all responsibilities for possible differences, by excess or by defect, connected to the quantity needed to finish the work in the building yard.
Please consider that we do not accept returns for exceeding goods and, if some goods are missing, they will be sold according to the usual sales conditions and with the usual freight charges.
